Maxim Bojic

Developer and UX/UI designer

I specialise in building websites, web applications with a focus on UX/UI. I have experience in recruiting staff and assessing technical skills.

EDUCATION

Bachelor's Degree, Design and Programming

HSE University

2021 - 2025, Moscow

I learn frontend development and interface design.
Also during training special attention is paid to creation and promotion of finished products.

EXPERIENCE

Fullstack Developer

Partisans

August 2024 - present - 1 year, Russia

Developed lendings, multi-page websites and web applications with interactive modules. Evaluated candidates' technical skills in recruitment.

Achievements include launching an NFT project that survived 11,000 users and generated successful sales. Developed a custom CMS with interactive editor, simplifying website management.

Frontend Developer and Designer

Maraku

April 2022 - May 2023 - 1 year and 2 months, Russia

Created and improved user interfaces of custom web applications, ensuring scalability and responsiveness. Collaborated with backend developers for integration and stable operation of services.

Worked on UI/UX design and made edits to interfaces to improve visuals and usability.

Frontend Developer (Internship)

Starnet Solutions

May 2021 - August 2021 - 4 months, Moldova

He was in charge of layout and design of lendings for the company's products, developed components for the design system and finalised interfaces of internal services.
